

Listing of Probation Conditions

STANDARD PROBATION CONDITIONS

Introductory Language and Conditions 1-13 are required as follows:

- 1) Obey all Laws
- 2) Comply With Board's Probation Program
- 3) Report in Person
- 4) Residency or Practice Outside of State
- 5) Submit Written Reports
- 6) Function as a Registered Nurse
- 7) Employment Approval and Reporting Requirements
- 8) Supervision
- 9) Employment Limitations
- 10) Complete a Nursing Course(s)
- 11) Cost Recovery (Does not apply to Applicants)
- 12) Violation of Probation
- 13) License Surrender

OPTIONAL PROBATION CONDITIONS

Conditions 14-19 are usually required (in addition to the standard conditions 1-13) if the offense involves alcohol/drug abuse. In cases of mental illness conditions 14, 18, and 19 are recommended. Any of these optional conditions may be included if relevant to the violation.

- 14) Physical Examination
- 15) Participate in Treatment/Rehabilitation Program for Chemical Dependence
- 16) Abstain From Use of Psychotropic (Mood-Altering) Drugs
- 17) Submit to Tests and Samples
- 18) Mental Health Examination
- 19) Therapy or Counseling Program
- 20) Actual Suspension of License

Introductory Language and Standard Probation Conditions

The following introductory language and all standard probation conditions are to be included in probationary decisions/orders. For applicants, Condition 11, Cost Recovery, does not apply. For licensees, all standard probation conditions apply. (Note: See alternative introductory language for applicants and reinstatements in next section of guidelines.)

INTRODUCTORY LANGUAGE FOR ALL ORDERS –

IT IS HEREBY ORDERED that Registered Nurse License Number ____ issued to Respondent ____ is revoked. However, the revocation is stayed and respondent is placed on probation for ____ years on the following conditions.

SEVERABILITY CLAUSE –

Each condition of probation contained herein is a separate and distinct condition. If any condition of this Order, or any application thereof, is declared unenforceable in whole, in part, or to any extent, the remainder of this Order, and all other applications thereof, shall not be affected. Each condition of this Order shall separately be valid and enforceable to the fullest extent permitted by law.

***RATIONALE:** The severability clause is required for all decisions and stipulated agreements where there are Conditions of Probation, in order to avoid the possibility of all probation conditions being repealed upon appeal.*

(1) OBEY ALL LAWS - Respondent shall obey all federal, state and local laws. A full and detailed account of any and all violations of law shall be reported by the respondent to the Board in writing within seventy-two (72) hours of occurrence. To permit monitoring of compliance with this condition, respondent shall submit completed fingerprint forms and fingerprint fees within 45 days of the effective date of the decision, unless previously submitted as part of the licensure application process.

CRIMINAL COURT ORDERS: If respondent is under criminal court orders, including probation or parole, and the order is violated, this shall be deemed a violation of these probation conditions, and may result in the filing of an accusation and/or petition to revoke probation.

***RATIONALE:** All licensees are responsible for “abiding by the law” and complying with court orders, should the licensee be subject to court ordered parole or probation. This condition emphasizes the respondent’s responsibility and it provides the Board with a means to take more immediate and severe action if another violation occurs.*

(2) COMPLY WITH THE BOARD'S PROBATION PROGRAM - Respondent shall fully comply with the conditions of the Probation Program established by the Board and cooperate with representatives of the Board in its monitoring and investigation of the respondent's compliance with the Board's Probation Program. Respondent shall inform the Board in writing within no more than 15 days of any address change and shall at all times maintain an active, current license status with the Board, including during any period of suspension.

Upon successful completion of probation, respondent's license shall be fully restored.

***RATIONALE:** Full compliance with conditions of probation demonstrates the respondent's commitment to rehabilitation and to correcting the problems which led to the disciplinary action.*

(3) REPORT IN PERSON - Respondent, during the period of probation, shall appear in person at interviews/ meetings as directed by the Board or its designated representatives.

***RATIONALE:** This provides a means for the Board representatives to make periodic personal assessments of the respondent, to give guidance and direction and to require the respondent to appear before the Board, if necessary.*

(4) RESIDENCY, PRACTICE, OR LICENSURE OUTSIDE OF STATE - Periods of residency or practice as a registered nurse outside of California shall not apply toward a reduction of this probation time period. Respondent's probation is tolled, if and when he or she resides outside of California. The respondent must provide written notice to the Board within 15 days of any change of residency or practice outside the state, and within 30 days prior to re-establishing residency or returning to practice in this state.

Respondent shall provide a list of all states and territories where he or she has ever been licensed as a registered nurse, vocational nurse, or practical nurse. Respondent shall further provide information regarding the status of each license and any changes in such license status during the term of probation. Respondent shall inform the Board if he/she applies for or obtains a new nursing license during the term of probation.

***RATIONALE:** This ensures that respondents may not complete probation without being fully monitored for their term in California. This further assures that the Board is aware of all licensure outside of California as a professional nurse.*

(5) SUBMIT WRITTEN REPORTS - Respondent, during the period of probation, shall submit or cause to be submitted such written reports/declarations and verification of actions under penalty of perjury, as required by the Board. These reports/declarations shall contain statements relative to respondent's compliance with all the conditions of the Board's Probation Program. Respondent shall immediately execute all release of information forms as may be required by the Board or its representatives.

Respondent shall provide a copy of this decision to the nursing regulatory agency in every state and territory in which he or she has a registered nurse license.

RATIONALE: *This provides the Board with a mechanism for maintaining communication with the respondent between meetings; gathering pertinent information from the respondent; and obtaining written materials, other than routine reports, that might be deemed necessary on an individual basis. This also allows coordination with other state agencies to discipline registered nurses.*

(6) FUNCTION AS A REGISTERED NURSE - Respondent, during the period of probation, shall engage in the practice of registered nursing in California for a minimum of 24 hours per week for 6 consecutive months or as determined by the Board.

For purposes of compliance with the section, “engage in the practice of registered nursing” may include, when approved by the Board, volunteer work as a registered nurse, or work in any non-direct patient care position that requires licensure as a registered nurse.

The Board may require that advanced practice nurses engage in advanced practice nursing for a minimum of 24 hours per week for 6 consecutive months or as determined by the Board.

If respondent has not complied with this condition during the probationary term, and the respondent has presented sufficient documentation of his or her good faith efforts to comply with this condition, and if no other conditions have been violated, the Board, in its discretion, may grant an extension of the respondent’s probation period up to one year without further hearing in order to comply with this condition. During the one year extension, all original conditions of probation shall apply.

RATIONALE: *This provides the Board with an opportunity to monitor the respondent and determine if he/ she can perform the functions and duties of a registered nurse in a competent manner. It also prevents the respondent from merely “sitting out” the probation and avoiding the necessity of demonstrating competence and complying with nursing practice related probation conditions.*

(7) EMPLOYMENT APPROVAL AND REPORTING REQUIREMENTS - Respondent shall obtain prior approval from the Board before commencing or continuing any employment, paid or voluntary, as a registered nurse. Respondent shall cause to be submitted to the Board all performance evaluations and other employment related reports as a registered nurse upon request of the Board.

Respondent shall provide a copy of this decision to his or her employer and immediate supervisors prior to commencement of any nursing or other health care related employment.

In addition to the above, respondent shall notify the Board in writing within seventy-two (72) hours after he or she obtains any nursing or other health care related employment. Respondent shall notify the Board in writing within seventy-two (72) hours after he or she is terminated or separated, regardless of cause, from any nursing, or other health care related employment with a full explanation of the circumstances surrounding the termination or separation.

RATIONALE: *This condition allows the Board to determine the appropriateness of a setting for which the respondent will be providing registered nursing services and to obtain reports relative to the respondent’s registered nursing competency.*

This condition additionally allows the Board to be informed of any employment, termination, or separation of the respondent from a nursing or other health care related position, e.g., as a licensed vocational nurse, respiratory

therapist, certified nursing assistant or home health aide. It includes reporting of employment in health care related services not regulated by the state, e.g., surgical technician or cardiac catheterization technician.

The condition also provides the Board with a mechanism for ensuring that the employer providing nursing or other health care-related services is informed of the license status of the respondent so that, if necessary, the work environment can be structured to ensure consumer safety.

(8) SUPERVISION - Respondent shall obtain prior approval from the Board regarding respondent's level of supervision and/or collaboration before commencing or continuing any employment as a registered nurse, or education and training that includes patient care.

Respondent shall practice only under the direct supervision of a registered nurse in good standing (no current discipline) with the Board of Registered Nursing, unless alternative methods of supervision and/or collaboration (e.g., with an advanced practice nurse or physician) are approved.

Respondent's level of supervision and/or collaboration may include, but is not limited to the following:

- (a) Maximum - The individual providing supervision and/or collaboration is present in the patient care area or in any other work setting at all times.
- (b) Moderate - The individual providing supervision and/or collaboration is in the patient care unit or in any other work setting at least half the hours respondent works.
- (c) Minimum - The individual providing supervision and/or collaboration has person-to-person communication with respondent at least twice during each shift worked.
- (d) Home Health Care - If respondent is approved to work in the home health care setting, the individual providing supervision and/or collaboration shall have person-to-person communication with respondent as required by the Board each work day. Respondent shall maintain telephone or other telecommunication contact with the individual providing supervision and/or collaboration as required by the Board during each work day. The individual providing supervision and/or collaboration shall conduct, as required by the Board, periodic, on-site visits to patients' homes visited by the respondent with or without respondent present.

RATIONALE: *This allows the Board to require appropriate supervision and/or collaboration, to monitor the respondent's registered or advanced practice nursing competency and thus protect consumer safety. The level of supervision or need for advanced practice collaboration will be determined by the Board at probation meetings.*

(9) EMPLOYMENT LIMITATIONS - Respondent shall not work for a nurse's registry, in any private duty position as a registered nurse, a temporary nurse placement agency, a traveling nurse, or for an in-house nursing pool.

Respondent shall not work for a licensed home health agency as a visiting nurse unless the registered nursing supervision and other protections for home visits have been approved by the Board. Respondent shall not work in any other registered nursing occupation where home visits are required.

Respondent shall not work in any health care setting as a supervisor of registered nurses. The Board may additionally restrict respondent from supervising licensed vocational nurses and/or unlicensed assistive personnel on a case-by-case basis.

Respondent shall not work as a faculty member in an approved school of nursing or as an instructor in a Board approved continuing education program.

Respondent shall work only on a regularly assigned, identified and predetermined worksite(s) and shall not work in a float capacity.

If the respondent is working or intends to work in excess of 40 hours per week, the Board may request documentation to determine whether there should be restrictions on the hours of work.

RATIONALE: *The condition prevents the respondent from engaging in the practice of registered nursing in situations where there is no close supervision and/or where the respondent could have undue authority over others and access to controlled substances. If the respondent is working through a private duty or temporary placement arrangement, there is no assurance that the contracting facility or contracting family is aware of the nurse's probation. Home health agencies are licensed by the state, and are staffed by registered nurse supervisors. On a case-by-case basis, respondents may be permitted to provide home care under specified conditions. RNs disciplined by the Board may not teach approved CE courses pursuant to Section 1457(a)(1)(A), Title 16, California Code of Regulations.*

(10) COMPLETE A NURSING COURSE(S) - Respondent, at his or her own expense, shall enroll and successfully complete a course(s) relevant to the practice of registered nursing no later than six months prior to the end of his or her probationary term.

Respondent shall obtain prior approval from the Board before enrolling in the course(s). Respondent shall submit to the Board the original transcripts or certificates of completion for the above required course(s). The Board shall return the original documents to respondent after photocopying them for its records.

RATIONALE: *This condition permits the Board to require the respondent to remediate deficiencies in knowledge which affected or may affect his/her practice of registered nursing. This is necessary in gross negligence or incompetence as well as alcohol/drug abuse cases.*

(11) COST RECOVERY - Respondent shall pay to the Board costs associated with its investigation and enforcement pursuant to Business and Professions Code Section 125.3 in the amount of \$_____. Respondent shall be permitted to pay these costs in a payment plan approved by the Board, with payments to be completed no later than three months prior to the end of the probation term.

If respondent has not complied with this condition during the probationary term, and respondent has presented sufficient documentation of his or her good faith efforts to comply with this condition, and if no other conditions have been violated, the Board, in its discretion, may grant an extension of the respondent's probation period up to one year without further hearing in order to comply with this condition. During the one year extension, all original conditions of probation will apply.

(12) VIOLATION OF PROBATION - If a respondent violates the conditions of his/her probation, the Board after giving the respondent notice and an opportunity to be heard, may set aside the stay order and impose the stayed discipline (revocation/suspension) of the respondent's license.

If during the period of probation, an accusation or petition to revoke probation has been filed against respondent's license or the Attorney General's Office has been requested to prepare an accusation or petition to revoke probation against the respondent's license, the probationary period shall automatically be extended and shall not expire until the accusation or petition has been acted upon by the Board.

(13) LICENSE SURRENDER - During respondent's term of probation, if he or she ceases practicing due to retirement, health reasons or is otherwise unable to satisfy the conditions of probation, respondent may surrender his or her license to the Board. The Board reserves the right to evaluate respondent's request and to exercise its discretion whether to grant the request, or to take any other action deemed appropriate and reasonable under the circumstances, without further hearing. Upon formal acceptance of the tendered license and wall certificate, respondent will no longer be subject to the conditions of probation.

Surrender of respondent's license shall be considered a disciplinary action and shall become a part of respondent's license history with the Board. A registered nurse whose license has been surrendered may petition the Board for reinstatement no sooner than the following minimum periods from the effective date of the disciplinary decision:

- (1) Two years for reinstatement of a license that was surrendered for any reason other than a mental or physical illness; or
- (2) One year for a license surrendered for a mental or physical illness.

Optional Probation Conditions

(14) PHYSICAL EXAMINATION - Within 45 days of the effective date of this decision, respondent, at his/her expense, shall have a licensed physician, nurse practitioner, or physician assistant, who is approved by the Board before the assessment is performed, submit an assessment of the respondent's physical condition and capability to perform the duties of a registered nurse. Such an assessment shall be submitted in a format acceptable to the Board. If medically determined, a recommended treatment program will be instituted and followed by the respondent with the physician, nurse practitioner, or physician assistant providing written reports to the Board on forms provided by the Board.

If respondent is determined to be unable to practice safely as a registered nurse, the licensed physician, nurse practitioner, or physician assistant making this determination shall immediately notify the Board and respondent by telephone, and the Board shall request that the Attorney General's office prepare an accusation or petition to revoke probation. Respondent shall immediately cease practice and shall not resume practice until notified by the Board. During this period of suspension, respondent shall not engage in any practice for which a license issued by the Board is required until the Board has notified respondent that a medical determination permits respondent to resume practice. This period of suspension will not apply to the reduction of this probationary time period.

If the respondent fails to have the above assessment submitted to the Board within the 45-day requirement, respondent shall immediately cease practice and shall not resume practice until notified by the Board. This period of suspension will not apply to the reduction of this probationary time period. The Board may waive or postpone this suspension only if significant, documented evidence of mitigation is provided. Such evidence must establish good faith efforts by the respondent to obtain the assessment, and a specific date for compliance must be provided. Only one such waiver or extension may be permitted.

***RATIONALE:** This condition permits the Board to require the respondent to obtain appropriate treatment for physical problems/ disabilities which could affect registered nursing practice. The physical examination can also be conducted to ensure that there is no physical evidence of alcohol/drug abuse. This condition protects the public if the physical examination determines that the respondent is not safe to practice by immediately suspending his or her practice. This condition further protects the public by immediately suspending the respondent's practice if he or she fails to comply with the physical examination requirement.*

(15) PARTICIPATE IN TREATMENT/REHABILITATION PROGRAM FOR CHEMICAL DEPENDENCE - Respondent, at his/her expense, shall successfully complete during the probationary period or shall have successfully completed prior to commencement of probation a Board-approved treatment/rehabilitation program of at least six months duration. As required, reports shall be submitted by the program on forms provided by the Board. If respondent has not completed a Board-approved treatment/rehabilitation program prior to commencement of probation, respondent, within 45 days from the effective date of the decision, shall be enrolled in a program. If a program is not successfully completed within the first nine months of probation, the Board shall consider respondent in violation of probation.

Based on Board recommendation, each week respondent shall be required to attend at least one, but no more than five 12-step recovery meetings or equivalent (e.g., Narcotics Anonymous, Alcoholics Anonymous, etc.) and a nurse support group as approved and directed by the Board. If a nurse support group is not available, an additional 12-step meeting or equivalent shall be added. Respondent shall submit dated and signed documentation confirming such attendance to the Board during the entire period of probation. Respondent shall continue with the recovery plan recommended by the treatment/rehabilitation program or a licensed mental health examiner and/or other ongoing recovery groups.

RATIONALE: *This condition permits the Board to require the respondent to obtain appropriate treatment, within a specified time period, for problems which could affect her/his registered nursing practice and provides for continued involvement in a support system. The Board supports the need for participation in an ongoing recovery program for a successful recovery from chemical dependency or substance abuse.*

(16) ABSTAIN FROM USE OF PSYCHOTROPIC (MOOD-ALTERING) DRUGS -

Respondent shall completely abstain from the possession, injection or consumption by any route of all psychotropic (mood altering) drugs, including alcohol, except when the same are ordered by a health care professional legally authorized to do so as part of documented medical treatment. Respondent shall have sent to the Board, in writing and within fourteen (14) days, by the prescribing health professional, a report identifying the medication, dosage, the date the medication was prescribed, the respondent's prognosis, the date the medication will no longer be required, and the effect on the recovery plan, if appropriate.

Respondent shall identify for the Board a single physician, nurse practitioner or physician assistant who shall be aware of respondent's history of substance abuse and will coordinate and monitor any prescriptions for respondent for dangerous drugs, controlled substances or mood-altering drugs. The coordinating physician, nurse practitioner, or physician assistant shall report to the Board on a quarterly basis respondent's compliance with this condition. If any substances considered addictive have been prescribed, the report shall identify a program for the time limited use of any such substances.

The Board may require the single coordinating physician, nurse practitioner, or physician assistant to be a specialist in addictive medicine, or to consult with a specialist in addictive medicine.

RATIONALE: *Abstinence from mood altering substances (alcohol/drugs) is necessary for compliance with the Board's Probation Program and to ensure successful rehabilitation. Abstinence from any psychotropic drug is required to prevent the substitution of one addicting substance with another.*

(17) SUBMIT TO TESTS AND SAMPLES - Respondent, at his/her expense, shall participate in a random, biological fluid testing or a drug screening program which the Board approves. The length of time and frequency will be subject to approval by the Board. The respondent is responsible for keeping the Board informed of respondent's current telephone number at all times. Respondent shall also ensure that messages may be left at the telephone number when he/she is not available and ensure that reports are submitted directly by the testing agency to the Board, as directed. Any confirmed positive finding shall be reported immediately to the Board by the program and the respondent shall be considered in violation of probation.

In addition, respondent, at any time during the period of probation, shall fully cooperate with the Board or any of its representatives, and shall, when requested, submit to such tests and samples as

the Board or its representatives may require for the detection of alcohol, narcotics, hypnotics, dangerous drugs, or other controlled substances.

If respondent has a positive drug screen for any substance not legally authorized and not reported to the coordinating physician, nurse practitioner, or physician assistant, and the Board files a petition to revoke probation or an accusation, the Board may suspend respondent from practice pending the final decision on the petition to revoke probation or the accusation. This period of suspension will not apply to the reduction of this probationary time period.

If respondent fails to participate in a random, biological fluid testing or drug screening program within the specified time frame, the respondent shall immediately cease practice and shall not resume practice until notified by the Board. After taking into account documented evidence of mitigation, if the Board files a petition to revoke probation or an accusation, the Board may suspend respondent from practice pending the final decision on the petition to revoke probation or the accusation. This period of suspension will not apply to the reduction of this probationary time period.

***RATIONALE:** This condition provides documentation that the respondent is substance or chemical free. It provides the Board with a mechanism through which to require additional laboratory analyses for the presence of narcotics, alcohol, and/or dangerous drugs when the respondent appears to be in violation of the conditions of probation or appears to be under the influence of mood altering substances. This condition protects the public by giving the Board the discretion to suspend respondent from practice based on the use of any substance that is not legally authorized. This condition further protects the public by immediately suspending the respondent's practice if he or she fails to comply with the drug screening requirement.*

(18) MENTAL HEALTH EXAMINATION - The respondent shall, within 45 days of the effective date of this decision, have a mental health examination including psychological testing as appropriate to determine his/her capability to perform the duties of a registered nurse. The examination will be performed by a psychiatrist, psychologist or other licensed mental health practitioner approved by the Board. The examining mental health practitioner will submit a written report of that assessment and recommendations to the Board. All costs are the responsibility of the respondent. Recommendations for treatment, therapy or counseling made as a result of the mental health examination will be instituted and followed by the respondent.

If respondent is determined to be unable to practice safely as a registered nurse, the licensed mental health care practitioner making this determination shall immediately notify the Board and respondent by telephone, and the Board shall request that the Attorney General's office prepare an accusation or petition to revoke probation. Respondent shall immediately cease practice and may not resume practice until notified by the Board. During this period of suspension, respondent shall not engage in any practice for which a license issued by the Board is required, until the Board has notified respondent that a mental health determination permits respondent to resume practice. This period of suspension will not apply to the reduction of this probationary time period.

If the respondent fails to have the above assessment submitted to the Board within the 45-day requirement, respondent shall immediately cease practice and shall not resume practice until notified by the Board. This period of suspension will not apply to the reduction of this probationary time period. The Board may waive or postpone this suspension only if significant, documented evidence of mitigation is provided. Such evidence must establish good faith efforts by the respondent to

obtain the assessment, and a specific date for compliance must be provided. Only one such waiver or extension may be permitted.

RATIONALE: *This condition permits the board to require the respondent to obtain appropriate treatment and counseling for mental health problems which could affect registered nursing practice and/or could lead to relapse of a chemical dependency problem. This condition protects the public if the mental health examination determines that the respondent is not safe to practice by immediately suspending his or her practice. This condition further protects the public by immediately suspending the respondent's practice if he or she fails to comply with the mental health examination requirement.*

(19) THERAPY OR COUNSELING PROGRAM - Respondent, at his/her expense, shall participate in an on-going counseling program until such time as the Board releases him/her from this requirement and only upon the recommendation of the counselor. Written progress reports from the counselor will be required at various intervals.

RATIONALE: *This condition permits the Board to require the respondent to obtain appropriate treatment and counseling for mental health or chemical dependency problems which could affect her/his nursing practice.*

(20) ACTUAL SUSPENSION OF LICENSE - Respondent is suspended from the practice of registered nursing for ____ months (period of time not to exceed one year) beginning the effective date of this decision.

During the suspension period, all probation conditions are in full force and effect except those relating to actual nursing practice. This period of suspension will not apply to the reduction of this probationary time period.

RATIONALE: *Business and Professions Code Section 2759(c) gives the Board of Registered Nursing authority to: "Suspend licensee's right to practice nursing for a period not exceeding one year" as a mode of discipline for registered nurses found guilty of violating the Nursing Practice Act.*

It is the intent of the Board of Registered Nursing to assure safe nursing practice and rehabilitate rather than to punish. As part of probation, the public may be better protected if the registered nurse is suspended from the practice of nursing.
